EDUCATION

B Tech in Information Technology

Asansol Engineering College, Asansol
Grad. July 2026

High School (10 + 2)

Sidhhartha public school, Delhi

EXPERIENCE

Frontend & Devops Engineer | *Sabhyasha*

- Developed responsive UI components and implemented API integration using Next.js to improve functionality across product pages.
- Built a lightweight, production-ready Docker image to streamline deployment and reduce container size by over 90%.
- Collaborated with cross-function teams to enhance the CI/CD pipelines , optimize cloud infrastructure ,and implement best practice for production environment.

Product Lead | *Asan Innovator*

- Lead the frontend development team and architected the entire backend system for the Devnest platform using Node.js, Express, and MongoDB.
- Designed and developed reusable, responsive UI components using React, enhancing user experience and maintainability.
- Built and integrated RESTful APIs for user management, problem sets, admin dashboards, and analytics modules.

Web Developer & SEO Specialist | *Amomic AI*

- Created a React-based website with a fully responsive layout.
 - Integrated APIs and implemented animations for an interactive user experience.
 - Enhanced SEO by optimizing meta tags, improving page load speed, implementing structured data, and refining keyword strategies, which led to improved search rankings and visibility.
-

PROJECTS

Personiks | [Live](#)

- Developed a full-stack responsive web application using Next.js, implementing modern UI/UX principles for seamless performance across devices.
- Integrated HDFC Payment Gateway for secure online transactions, handling payment flow, success/failure states, and backend verification.
- Optimized website performance through image optimization, lazy loading, and code splitting, improving load speed and overall user experience

Devnest Backend | [Asan Innovators](#)

- Developed and managed a significant portion of the backend for the Devnest platform using Node.js and Express.
 - Designed and implemented multiple REST APIs for authentication, admin operations, and user interaction modules.
 - Refactored and improved database schema design with Mongoose validations to enhance data integrity and error handling.
-

SKILLS

Programming Languages:

Javascript, Typescript, JAVA, C

Web Development Tools:

HTML, CSS, React.js, Next.js, Node.js, Express.js, Tailwind

DevOps:

Docker, Kubernetes, GCP, AWS, Terraform

Database:

MongoDB, MySQL, Prisma

Version Control & Build Tools:

Git, npm, bun
